“use any language” application which will return me the latest 6 stories on Time.com's (highlighted as in image) when I call it as a custom API.

The Source URL is <https://time.com>

The screenshot shows the Time.com website. The browser address bar displays 'time.com'. The page features a 'FEATURED VOICES' section with three articles by Anatol Lieven, Yohanca Delgado, and Robert J. Davis. A 'LATEST STORIES' section on the right highlights six recent articles, including one about Amy Schneider's Jeopardy! streak and another about the James Webb Space Telescope. A red sidebar on the left contains the text 'SUBSCRIBE AND SAVE 80%'.
